EDUCATION

DHARMSINH DESAI UNIVERSITY

B.Tech Information Technology

Nadiad, India

AUG 2023 - MAY 2026

GUJARAT TECHNOLOGICAL UNIVERSITY

DIPLOMA in Computer Engineering

Jamnagar, India

AUG 2020 - MAY 2023

WORK EXPERIENCE

[SuiSign](#) *Founding Blockchain Engineer*

Remote | Apr 2025 - Present

- Founded decentralized document-signing platform on Sui; won 1st place at Sui Overflow 2025 (\$30K + \$10K AWS) among 3,000+ developers
- Authored Move smart contracts for agreement lifecycle, multi-party signing, and cryptographic audit trails; integrated Walrus storage cutting costs ~67% vs. incumbents
- Built gasless UX via sponsored transactions + zkLogin (Google OAuth → ZK proof), abstracting all blockchain complexity for end users
- Shipped full-stack product: React/Vite SPA with drag-and-drop signatures, Node.js/Express API, PostgreSQL, AES-256-GCM encryption, and hardened security (CSP, HSTS, rate limiting)
- Owned 0→1 execution: protocol design, AWS EC2/Docker deployment, Razorpay billing, and webhook infrastructure

[Skepsis](#) *Full-Stack Blockchain Engineer Intern*

Remote | Apr 2026 - May 2026

- Built oracle-backed prediction market on Arbitrum Sepolia with Chainlink feeds, LMSR market mechanics, and automated series scheduling (hourly/daily/weekly)
- Shipped backend automation for resolution keepers and event-driven indexer updates, replacing expensive periodic on-chain syncs
- Owned full stack: Solidity smart contracts, TypeScript integration scripts, deployment tooling, and protocol guardrails

Freelancer *Full-Stack Developer*

JAN 2024 - FEB 2025

- Built [Toradle](#)'s frontend with React, adding fiat and crypto payments, wallet-based Web3 authentication, and real-time functionality using thirdweb, wagmi, RESTful API, and WebSocket.
- Developed a [real estate platform](#) using React and FastAPI enabling property listings, search, and lead generation, improving inquiry conversions.

PROJECTS

[SynapseModel](#)

Polygon Blockchain, *Fluence*(decentralized computing), *FastAPI*, *React*

- Decentralized AI model marketplace (Polygon, Fluence, FastAPI, React). Won EthGlobal Delhi Fluence Track (\$1,500).

[Globtera](#)

Stellar, *React*, *Typescript*, *Node.js*, *Prisma*(ORM), *Tailwind CSS*, *PostgreSQL*

- Micro-donation platform on Stellar. Won Stellar Indiathon (\$500).

SKILLS

Programming Languages: Java, TypeScript, JavaScript, Solidity, Python

Web Technologies: React, Next.js, Node.js, Express.js, WebSocket, WebRTC, gRPC, OpenAPI

Cloud & Infrastructure: AWS, Docker, Kubernetes, Serverless Backends, Auto Scaling Groups, Monorepo

Distributed Systems & Observability: Kafka, Pub/Sub, Prometheus, Grafana

Fundamentals & Tools: Object Oriented Programming, Data Structures, DBMS, SQL, NoSQL, Vertical Scaling, Git, GitHub, VSCode, Postman
